## PROJECTS

### Hunt kingdom platform

A shop and a forum for hunters and campers to buy tools and exchange knowledge.

The platform consists of a website, a desktop app and a mobile app.

- Lead a six-person team to plan and build the platform in a six months period using the Agile methodology.
- Developing the cart and checkout module and implementing online payment using the Stripe API.

## ABOUT ME

I'm a web developer with more than a year doing front-end. I enjoy exploring the vast, ever changing, environment of the web and I never shy away of tackling unexplored areas and learning new exciting technologies.
